Redemption

The Investor is entitled to receive from the Issuer on the Redemption Date an amount in the Settlement Currency in respect of each Denomination, according to the following scenarios:

Scenario 1 If a **Kick-In Event has NOT occurred in respect of any Constituent (i)**, the Investor will receive 100% of the Nominal

Scenario 2 If a **Kick-In Event has occurred in respect of any Constituent (i)**, and:

- 1) If the Expiration Value of **all** Constituents are **at or above** their respective Strike Levels, the Investor will receive 100% of the Nominal;
- 2) If the Expiration Value of **one or more** Constituents is **below** the respective Strike Level, the Investor will receive an amount according to the following formula:

$$\text{Nominal} \times \left[\frac{1}{15} \times \sum_{i=1}^{15} (\text{Constituent Redemption Amount (i)}) \right]$$

For the avoidance of doubt, the Coupon payment is due in any case.

Constituent Redemption Amount (i) In respect of each Constituent (i), the Constituent Redemption Amount (i) shall be determined as follows:

1) If a **Kick-In Event has NOT occurred**: 100%

2) If a **Kick-In Event has occurred**: $\text{Min} \left[100\% ; 100\% - \frac{\text{Strike(i)} - \text{Expiration Value (i)}}{\text{Initial (i)}} \right]$

Where:

Initial (i) means the Initial Level of Constituent (i)

Strike (i) means the Strike Level of Constituent (i)

Kick-In Event A Kick-In Event shall be deemed to have occurred in respect of each Constituent (i) if, at any time on any Exchange Business Day with respect to Constituent (i) during the period from and including the Pricing Date to and including the Expiration Date, the level of the Constituent (i) quoted on the Related Exchange is **at or below** the Kick-In Level of Constituent (i), as reasonably determined by the Calculation Agent

Expiration Value (i) Means the official closing value of Constituent (i) on the Expiration Date on the Related Exchange, as determined by the Calculation Agent

Product Structure

The Combo Barrier Reverse Convertible is a product that offers the Investor a coupon. In return for this, Investors take the risk that they will receive the cash equivalent of one or more of the Constituents at Redemption of the product.

As long as none of the Kick-In Levels of the Basket Constituents has been touched or breached during the lifetime of the Product, the Investor will receive 100% of the Nominal in cash. Otherwise, the Investor will receive:

- 100% of the Nominal in cash, if at Expiry all Constituents close at or above their respective Strike Levels; or
- a value reflecting the sum of the performance of the individual underlying BRCs, if at Expiry one or more Constituents close below their respective Strike Levels.

The Coupon will be paid out in any scenario. The Product offers a relatively high coupon in return for not profiting from gains above the strike level and for taking the risk of a loss potential equivalent to a direct investment in the shares contained in the basket.

liability related to the increase of the bond floor crystallises at redemption and does not depend on the time of purchase. However, any gain derived from the option is considered as capital gain and is therefore for such investors not subject to income tax.

Swiss Withholding Tax

This product is not subject to the Swiss Issuer Withholding Tax. It depends on the jurisdiction of the issuer whether a foreign issuer withholding tax applies.

The tax information only provides a general overview over the Swiss tax consequences linked to this product based on the tax laws and the practice of the tax administration at the time of issue. Tax laws and the practice of tax administrations may change, possibly with retroactive effect.

Withholding related to 871 (m) of the U.S. Tax Code

A 30% withholding tax is imposed on certain "dividend equivalents" paid or deemed paid to a non-U.S. holder with respect to a "specified equity-linked instrument" that references one or more dividend-paying U.S. equity securities. The withholding tax can apply even if the instrument does not provide for payments that reference dividends. Treasury regulations provide that the withholding tax applies to all dividend equivalents paid or deemed paid on specified equity-linked instruments that have a delta of one ("delta one specified equity-linked instruments") issued after 2016 and to all dividend equivalents paid or deemed paid on all other specified equity-linked instruments issued after 2018.

The Issuer has determined that the Products are not specified equity-linked instruments that are subject to withholding on dividend equivalents and, therefore, will not be subject to withholding on dividend equivalent payments. It is possible, however, that the Products could be deemed to be reissued for tax purposes upon the occurrence of certain events affecting the (i) Shares and/or Index referenced in the Products or (ii) these Products, and following such occurrence, the Products could be treated as delta one specified equity-linked instruments that are subject to withholding on dividend equivalent payments. It is also possible that withholding tax or other Section 871(m) tax could apply to the Products under these rules if a non-U.S. holder enters, or has entered, into certain other transactions in respect of the relevant Shares and/or Index referenced in the Products. If withholding is required, the Issuer will withhold 30% in respect of dividend equivalents paid or deemed paid on the Products and will not pay any additional amounts with respect to any such taxes withheld. Additionally, in the event that withholding is required, the Issuer hereby notifies each holder that for purposes of Section 871(m), the Issuer will withhold in respect of dividend equivalents paid or deemed paid on the Products on the dividend payment date as described in Treasury regulations section 1.1441-2(e)(4) and Revenue Procedure 2017-15 §3.03(B), as applicable. A non-U.S. holder that enters, or has entered, into other transactions in respect of the Shares and/or Index referenced in the Products should consult its own tax advisor regarding the application of Section 871(m) to its Products in the context of its other transactions. No assurance can be given that investors in the Products will be able to successfully claim a reduction in tax pursuant to an income tax treaty.

Classification

This Product does not represent a participation in any of the collective investment schemes pursuant to Art. 7 ff of the Swiss Federal Act on Collective Investment Schemes (CISA) and thus does not require an authorisation of the Swiss Financial Market Supervisory Authority (FINMA). Therefore, Investors in this Product are not eligible for the specific investor protection under the CISA. Moreover, Investors in this Product bear the issuer risk.

Furthermore, this Product does not benefit from any depositor protection under Art. 37a under the Swiss Federal Law on Banks and Savings Banks (Banking Act) or other forms of deposit insurance under any other law as might be applicable to this Product.

2. Prospects of Profits and Losses

Market Expectation	Investors in this Product expect all Constituents to trade sideways. In any case Investors expect that none of the Kick-In Levels will be touched.
Effect of the performance of the Underlying on the redemption amount:	
- Positive performance	If all Constituents perform positively, Investors realise a positive return.
- Sideways to slightly negative performance	If all Constituents perform sideways to slightly negative, Investors still realise a positive return.
- Negative performance	If one or more Constituent performs negatively and additionally the respective Kick-In Level has been touched, Investors may lose some or all of their investment.
Maximum Return	The profit potential is limited to the coupon payment(s).
Maximum Loss	Investors may lose some or all of the investment as they are fully exposed to the performance of the Constituents.

3. Significant Risks for Investors

General risk warning	Potential Investors should understand the risks associated with an investment in the Product and shall only reach an investment decision after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Product in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Underlying(s). The following is a summary of the most significant risks. Further risks are set out in the Product Documentation.
Risk Tolerance	Investors in this Product should be experienced Investors and familiar with both derivative products and the stock markets. Although Investors benefit from a predefined, regular coupon payment, they must be willing to make an investment that is exposed to the full down-side risk of the Underlying(s). A high coupon can indicate a higher risk, in that the rate of the coupon relative to the rate of the risk-free return indicates the overall risk of the product.

Product Specific Risk

Loss Potential	Investors may lose some or all of the investment as they are fully exposed to the negative performance of the Underlying(s)
Capital Protection (at Expiry)	None
Risk Potential in comparison to a direct investment in the Underlying(s)	The Kick-In Levels limit the risk exposure compared to a direct investment. However, once one or more of the Kick-In Levels are touched, the risk potential is similar as with a direct investment in the Underlying(s).
Issuer Call right	None
Stop Loss Event	None
Extraordinary termination risk	The Product contains terms and conditions that allow the Issuer to terminate and redeem the Product prior to the Redemption Date. In case of such extraordinary termination, the Issuer shall pay to the Investors an extraordinary termination amount as determined by the Calculation Agent which is usually equivalent to the market value of the Product. Potential Investors should note that the extraordinary termination amount may deviate from and may be considerably below the amount which would be payable pursuant to the final redemption provisions on the Redemption Date. Investors are not entitled to request any further payments on the Product after the termination date.
Adjustment risk	Potential Investors should be aware that it cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying(s) which can lead to changes to the Underlying(s) or its concept (e.g. corporate events of a company whose shares constitute an Underlying, market disruption events or other circumstances affecting normal activities). In the case of the occurrence of such events or measures, the Issuer and/or the Calculation Agent are entitled to effect adjustments according to the Product Documentation. Such adjustments might have a negative impact on the value of the Product.
Illiquidity risk in secondary market	The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and/or offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and/or offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices. Potential Investors therefore should not rely on the ability to sell this Product at a specific time or at a specific price. Potential Investors should note that prices quoted typically include a spread and therefore may deviate from the market value of the Product. In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices in the secondary market may be temporarily expanded, in order to limit the economic risks of the Issuer. Hence, Investors might sell at a price considerably lower than the actual price of the Product at the time of its sale. By selling the Product in the secondary market Investors may receive less than the capital invested. In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with the Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.
Market Disruption risk	Investors are exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), which could have an impact on the redemption amount through delay in payment, change in value or suspension of trading in the Product in the secondary market. For a detailed description of such events

Contact:	UBS AG, P.O. Box, 8098 Zürich	Private Investors: Please contact your client advisor or send an email to keyinvest@ubs.com

and their effects please refer to the Product Documentation.

Withholding tax Investors in this Product should note that any payment under this Product may be subject to withholding tax (such as, inter alia, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). **Any payments due under this Product are net of such tax.** Please refer to the General Terms and Conditions for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be required to pay additional amounts with respect to the amount so withheld.

Risk Factors relating to the Issuer

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank pari passu with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The general assessment of the Issuer's creditworthiness may affect the value of the Products. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

The Issuer Ratings indicated in this document reflect the situation at the time of issuance and may be subject to changes. The actual Issuer Ratings at any given time can be seen on the Issuer's website (www.ubs.com) under "Analysts & Investors".

4. Additional Information

Product Documentation

This document ("**Indicative Terms**") constitutes the non-binding Indicative Simplified Prospectus for the Product and contains the information required by Article 5 CISA and the corresponding Guidelines of the Swiss Bankers Association. The prospectus requirements of Article 652a/Article 1156 of the Swiss Code of Obligations are not applicable. The Indicative Simplified Prospectus contains indicative terms and conditions subject to change. The Final Simplified Prospectus in accordance with Article 5 CISA will be made available on the Issue Date.

These Indicative Terms (Indicative Simplified Prospectus) together with the 'General Terms and Conditions for Structured Products on Equity, Commodity and Index Underlyings', stipulated in English and as amended from time to time, ("**General Terms and Conditions**") shall form the non-binding and indicative documentation for this Product ("**Indicative Product Documentation**"), and accordingly the Indicative Terms should always be read together with the General Terms and Conditions. The Indicative Simplified Prospectus may be provided in various languages, however, only the English version shall be relevant and any translations are for convenience only. Definitions used in the Indicative Terms, but not defined herein shall have the meaning given to them in the General Terms and Conditions. In the event that the Product will be listed (see above item "**Listing**" under "**General Information**"), the Product Documentation will be amended in accordance with the listing requirements of the relevant exchange.

The Indicative Product Documentation can be obtained free of charge from UBS AG, P.O.
