

# Closer to the market

Trading UBS leverage products **from 8.00 a.m. to 22.00 p.m.**

For marketing purposes only

UBS is offering a large selection of leverage products on Swiss DOTS that can be traded directly with the issuer **from 8.00 a.m. until 10.00 p.m.** on every trading day. More than **25,000 UBS Warrants, Mini Futures and Turbo Warrants** are available to the investor. The underlying universe includes CH, EU and US equities and indices as well as commodities such as Gold and Silver and the most frequently traded currency pairs. The investor benefits from both the attractive pricing and large trading volumes offered by UBS. This means that liquid trading at fair prices is fundamentally guaranteed even for high numbers of units. By regularly issuing products UBS guarantees that the offer remains up to date in every market situation.

## I. Wide range of products

More than 25,000 UBS Warrants, Mini Futures and Turbo Warrants on Swiss, EU and US equities as well as indices, commodities such as Gold and Silver and the most frequently traded currency pairs. UBS products on Swiss DOTS are always settled in cash – no underlying assets are delivered.

## II. Extended trading times

All UBS products are traded on exchange trading days from 8.00 a.m. until 10.00 p.m. Products on equities can be removed from trading on a temporary basis during any relevant auctions in the underlying or corporate action.

## III. Attractive prices

Trading quality is a high priority for Swiss DOTS: UBS leverage products are rounded to three decimal places. In addition, tight bid-ask spreads, i.e. small differences between the buying and selling rates, ensure low transaction costs for the product. The pricing for large trading volumes generally allows liquid and problem-free trading even for high numbers of units.

## IV. Secure trading

If for any reason a mistrade (incorrect trade concluded) should occur, clear mistrade rules are triggered immediately. A buying or selling trade is declared to be a mistrade if it is concluded at a price that deviates significantly from the market price that was valid at the relevant time of the trade. This means that it can be guaranteed that the UBS product range is always traded at fair conditions. This is monitored both by Swissquote and the issuers.

### Trading hours on Swiss DOTS

CH equities (Nestlé, Novartis, ...)	8.00 - 22.00
CH indices (SMI®)	8.00 - 22.00
EU equities (Bayer, Siemens, ...)	8.00 - 22.00
EU indices (DAX®, Euro STOXX 50®, ...)	8.00 - 22.00
US equities (Apple, Facebook, ...)	8.00 - 22.00
US indices (S&P500®, Nasdaq 100®, ...)	8.00 - 22.00
Currencies (EUR/USD, EUR/CHF, ...)	8.00 - 22.00

## V. Efficient order processing

Different order types are supported by Swiss DOTS. Swissquote ensures that the transactions are concluded in accordance with the order type. The client can choose between market order, limit order, stop-loss order, and stop-limit order. The stop levels are monitored continuously on the basis of the UBS bid-ask rates and executed immediately once the limit is reached. There is also the option of a quote request, which is answered by UBS trading desk in real time.

\* On public holidays, Swiss DOTS generally has the same trading hours as the stock exchange on which the underlying values are traded. Times might differ in particular cases. Products based on currency pairs and commodities generally have the same trading hours as EU equities.

## VI. More than 200 underlyings available

### What is Swiss DOTS

Swiss DOTS stands for Swiss Derivatives OTC (over the counter) Trading System and was launched in May 2012 by the Swiss online bank Swissquote in collaboration with UBS and Goldman Sachs. With Commerzbank and Deutsche Bank two new issuers joined the platform recently. Investors are currently offered more than 40,000 products on Swiss DOTS, whereby regular product issues ensure that there is always a market-fresh offer available.

### Disclaimer

This information is communicated by UBS AG and/or its affiliates ("UBS"). UBS may from time to time, as principal or agent, have positions in, or may buy or sell, or make a market in any securities, currencies, financial instruments or other assets underlying the product to which this document relates (the "Product"). UBS may provide investment banking and other services to and/or have officers who serve as directors of the companies referred to in this document. UBS's trading and/or hedging activities related to the Product may have an impact on the price of the underlying asset and may affect the likelihood that any relevant barrier is crossed. UBS has policies and procedures designed to minimise the risk that officers and employees are influenced by any conflicting interest or duty and that confidential information is improperly disclosed or made available. In certain circumstances UBS sells the Product to dealers and other financial institutions at a discount to the issue price or rebates to them for their own account some proportion of the issue price. Further information is available on request. Structured products are complex and may involve a high risk of loss. Prior to purchasing the Product you should consult with your own legal, regulatory, tax, financial and accounting advisors to the extent you consider it necessary, and make your own investment, hedging and trading decisions (including decisions regarding the suitability of the Product) based upon your own judgement and advice from those advisers you consider necessary. Save as otherwise expressly agreed in writing, UBS is not acting as your financial adviser or fiduciary in relation to the Product. Unless stated otherwise in this document, (i) this document is for information purposes only and should not be construed as an offer, personal recommendation or solicitation to purchase the Product and should not be treated as giving investment advice, and (ii) the terms of any investment in the Product will be exclusively subject to the detailed provisions, including risk considerations, contained in the information memorandum, prospectus or other issuer documentation for the issue of the Product. UBS makes no representation or warranty relating to any information herein which is derived from independent sources. This document shall not be copied or reproduced without UBS's prior written permission. No action has been or will be taken in any jurisdiction that would permit a public offering of the Product, save where explicitly stated in the issuer documentation. The Product must be sold in accordance with all applicable selling restrictions in the jurisdictions in which it is sold. This material contains data derived as a result of backtesting of data and is provided by UBS in good faith using our standard methodology for information of this kind. That methodology relies on proprietary models, empirical data, assumptions and such other information that we believe to be accurate and reasonable. We make, however, no representation as to the accuracy, completeness or appropriateness of such methodology and accept no liability for your use of the Information. Specifically, there is no assurance that other banks or brokers would derive the same results for the backtest period. © UBS 2015. All rights reserved.
