$$\sum_{i=1}^n \text{weight}_i * \left(\frac{\text{Index}_i(\text{Final Level})}{\text{Index}_i(\text{Initial Level})} \right) * 100\%$$

Where:

Index_i (InitialLevel) = The Official Closing Values on the Pricing Date, as specified in the table "Information on Underlying Basket" above

Index_i (FinalLevel) = The Official Closing values on the Expiration Date, as determined by the Index Sponsor

n = Total number of Indices in the Basket

Product Structure

The CPN is a note with an embedded call option that offers an unlimited maximum gain opportunity, while providing certain capital preservation. The Investor is participating in the upside performance of the Basket, if it closes above the Underlying Basket Strike Level.

On the Redemption Date, the risk of loss is - subject to the credit risk of the Issuer - limited to the difference between the purchase price and the Capital Protection.

Compared to a standard CPN, the Issuer has the right to call the product early as described above (Call Features). Investors should be aware that the Early Redemption Value may be considerably lower than the actual value of the Product.

Tax Treatment Switzerland

Bond floor at issue	94.70% (USD 947.00 per Nominal)
Swiss Transfer Stamp Duty	The product qualifies as a taxable security (bond). In principle secondary market transactions are subject to Swiss Stamp Duty.
Swiss Income Tax	For tax purposes this product is qualified as a combination of an option and bond, where the majority of the return of the bond part is in the form of a discount or of one payment on redemption date (IUP). For private investors with tax domicile in Switzerland the increase of the value of the bond part (according to the "Modifizierte Differenzbesteuerung") at sale or maturity is subject to Swiss federal as well as cantonal and communal income tax. Such an investor is taxed on the difference between the bondfloor at purchase* and the bond floor at sale or redemption*. However, any gain derived from the option is considered as capital gain and is therefore for such investors subject to neither Swiss federal nor cantonal and communal income tax. *each to be converted into CHF at the prevailing exchange rate at purchase and sale or redemption (if applicable).
Swiss Withholding Tax	The product is not subject to the Swiss Withholding Tax. It depends on the jurisdiction of the issuer whether a foreign issuer withholding tax applies.

The tax information only provides a general overview over the Swiss tax consequences linked to this product based on the tax laws and the practice of the tax administration at the time of issue. Tax laws and the practice of tax administrations may change, possibly with retroactive effect.

Classification

This Product does not represent a participation in any of the collective investment schemes pursuant to Art. 7 ff of the Swiss Federal Act on Collective Investment Schemes (CISA) and thus does not require an authorisation of the Swiss Financial Market Supervisory Authority (FINMA). Therefore, Investors in this Product are not eligible for the specific investor protection under the CISA. Moreover, Investors in this Product bear the issuer risk.

Furthermore, this Product does not benefit from any depositor protection under Art. 37a under the Swiss Federal Law on Banks and Savings Banks (Banking Act) or other forms of deposit insurance under any other law as might be applicable to this Product.

2. Prospects of Profits and Losses

Market Expectation Investors in this Product expect the Underlying Basket to trade positively.

Effect of the performance of the Underlying Basket on redemption amount or on delivery obligation:

- Positive performance If the Underlying Basket performs positively, Investors realise a positive return.
- Sideways to slightly negative performance If the Underlying Basket performs sideways to slightly negative, Investors will receive at least the Capital Protection.
- Pronounced negative performance If the Underlying Basket performs negatively, Investors will receive the Capital Protection.

 Please note that calls made to the numbers marked with an asterisk (*) may be recorded. Should you call one of these numbers, we shall assume that you consent to this business practice.

Maximum Return	The profit potential is theoretically unlimited, unless the Product is called by the issuer.
Maximum Loss	Subject to the credit risk of the Issuer, Investors may not lose more than the difference between the purchase price and the Capital Protection.

3. Significant Risks for Investors

General risk warning	Potential Investors should understand the risks associated with an investment in the Product and shall only reach an investment decision after careful considerations with their legal, tax, financial and other advisors of (i) the suitability of an investment in the Product in the light of their own particular financial, fiscal and other circumstances; (ii) the information set out in this document and (iii) the Underlying(s). The following is a summary of the most significant risks. Further risks are set out in the Product Documentation.
Risk Tolerance	Investors in this Product should be experienced Investors and familiar with both derivative products and the stock markets.

Product specific risks

Loss Potential	On the Redemption Date, the risk of loss is - subject to the credit risk of the Issuer - limited to the difference between the purchase price and the Capital Protection.
Capital Protection (at Expiry)	Yes. Moreover, Investors are exposed to the credit risk of the Issuer.
Risk Potential in comparison to a direct investment in the Underlying	The Capital Protection limits the risk exposure compared to a direct investment.
Issuer Call right	Yes
Stop Loss Event	None
Currency risk	As the Settlement Currency is different from the currency in which the Underlying is denominated, the value of this Product is exposed to the corresponding FX exchange rate. The currency risk is not hedged.
Early Redemption Risk	The Issuer may call the Product for early redemption on a Call Observation Date at its discretion. Investors must be aware that the Early Redemption Value on the Early Redemption Date may be considerably lower than the actual value of the Product on such a date. Investor therefore may consider to sell the Product before a Call Observation Date in the secondary market.
Extraordinary termination risk	The Product contains terms and conditions that allow the Issuer to terminate and redeem the Product prior to the Redemption Date. In case of such extraordinary termination, the Issuer shall pay to the Investors an extraordinary termination amount as determined by the Calculation Agent which is usually equivalent to the market value of the Product. Potential Investors should note that the extraordinary termination amount may deviate from and may be considerably below the amount which would be payable pursuant to the final redemption provisions on the Redemption Date. Investors are not entitled to request any further payments on the Product after the termination date.
Adjustment risk	Potential Investors should be aware that it cannot be excluded that certain events occur or certain measures are taken (by parties other than the Issuer) in relation to the Underlying(s) which can lead to changes to the Underlying(s) or its concept (e.g. corporate events of a company whose shares constitute an Underlying, market disruption events or other circumstances affecting normal activities). In the case of the occurrence of such events or measures, the Issuer and/or the Calculation Agent are entitled to effect adjustments according to the Product Documentation. Such adjustments might have a negative impact on the value of the Product.

Illiquidity risk in secondary market	<p>The Issuer or the Lead Manager, as applicable, intends, under normal market conditions, to provide bid and/or offer prices for this Product on a regular basis. However, the Issuer or the Lead Manager, as applicable, makes no firm commitment to provide liquidity by means of bid and/or offer prices for this Product, and assumes no legal obligation to quote any such prices or with respect to the level or determination of such prices.</p> <p>Potential Investors therefore should not rely on the ability to sell this Product at a specific time or at a specific price. Potential Investors should note that prices quoted typically include a spread and therefore may deviate from the market value of the Product. In special market situations, where the Issuer is completely unable to enter into hedging transactions, or where such transactions are very difficult to enter into, the spread between the bid and offer prices in the secondary market may be temporarily expanded, in order to limit the economic risks of the Issuer. Hence, Investors might sell at a price considerably lower than the actual price of the Product at the time of its sale. By selling the Product in the secondary market Investors may receive less than the capital invested.</p> <p>In case of a secondary market transaction, there is a possibility that costs, including taxes, related to or in connection with the Product may arise for Investors that are not paid by the Issuer or imposed by the Issuer.</p>
Market Disruption risk	<p>Investors are exposed to market disruption events (such as trading disruption, exchange disruption and early closure of the relevant exchange), which could have an impact on the redemption amount through delay in payment, change in value or suspension of trading in the Product in the secondary market. For a detailed description of such events and their effects please refer to the Product Documentation.</p>
Withholding tax	<p>Investors in this Product should note that any payment under this Product may be subject to withholding tax (such as, inter alia, Swiss Withholding Tax, and/or withholding related to FATCA or 871(m) of the US Tax Code). Any payments due under this Product are net of such tax. Please refer to the General Terms and Conditions for detailed information. If the Issuer is required to withhold any amount pursuant to Section 871(m) or FATCA of the U.S. Tax Code, the Issuer will not be required to pay additional amounts with respect to the amount so withheld.</p>

Risk Factors relating to the Issuer

In addition to the market risk with regard to the development of the Underlying, each Investor bears the general risk that the financial situation of the Issuer could deteriorate. The Products constitute immediate, unsecured and unsubordinated obligations of the Issuer, which, particularly in case of insolvency of the Issuer, rank *pari passu* with each and all other current and future unsecured and unsubordinated obligations of the Issuer, with the exception of those that have priority due to mandatory statutory provisions. The general assessment of the Issuer's creditworthiness may affect the value of the Products. This assessment generally depends on the ratings assigned to the Issuer or its affiliated companies by rating agencies such as Moody's, Fitch and Standard & Poor's.

The Issuer Ratings indicated in this document reflect the situation at the time of issuance and may be subject to changes. The actual Issuer Ratings at any given time can be seen on the Issuer's website (www.ubs.com) under "Analysts & Investors".
